Show & Tell

Jody McDaniel rounded out his busy year with an interesting model that was given to him by one of his relatives.

This 84 inch Extra 260 is powered by a 3.7 ci gas engine. When we begin using engines larger than a "60", it really makes sense to go to gasoline for power.

The gasoline costs considerably less than glo-fuel and it gets much better fuel "mileage" than alcohol based fuel. The post-flight cleanup is much easier too.

Come to the January meeting prepared to discuss events for 2014.

See you at the meeting.....
